WB4000 Series Wrist Strap Set

Description

Featuring a machined 4mm post, the blue colored 4000 series wrist band and coil cord set features a 360 degree conductive contact around the wrist, providing maximum skin contact. The band is standard with 4mm machined male snap. The 2.5mm polyurethane coil insulation offers excellent coil memory. A shorter, swivel type banana jack increases coil life, prevents cord tangles and fits most bench grounds. The soft, blue woven fabric of the wrist band allows the skin to breathe and is very comfortable to wear. It uses highly conductive copper sulfide nylon thread for conductivity and it has a maximum resistance of 160 ohms.

Meets or exceeds requirements of ANSI ESD-S20.20 and ESDA Standard 1.1-2006
