## ESD & Clean Room Products

ESD Nylon gloves size S/M/L/XL  
כפפה עשויה 100% חוט ניילון פוליאוריתן אנטי סטטי

TE-701-S/M/L/XL

10pcs

### Product description

Nylon glove is made of 100% nylon filament, and Polyurethane, its basic material is nylon. It is with good elasticity, antislip, oil proof, durability and air permeability. Nylon glove can prevent products from being damaged by human static electronic. It applies for cleanroom, electronic factory, PCB factory, TFT LCD factory, semiconductor factory, laboratory precise assembly project, etc.

- Good elasticity.
- Good ventilation.
- Comfortable and durable.
- Washable and reusable

### Product application:

Nylon glove is widely use for cleanroom, electronic factory, PCB factory, TFT LCD factory, semiconductor factory, laboratory precise assembly project, etc.

### Size and packing:

nylon gloves series have S, M, L,XL.

10pair/bag

### Glove Size Table

Description	Material component	size
TE-701-SIZE Nylon gloves, white	White nylon	S-pink
		M-green
		L-grey
		XL-black
